

Euphorbia 'Tui'

Description

This stunning new euphorbia forms a compact mound of lush plum to dark purple foliage. It's topped in late winter to early spring with attractive flower spikes of plum to dark purple blooms. This low maintenance plant is great for the front of the border, also perfectly at home in pots & containers on the deck & patio. Best grown in well-drained soils in full sun. Hardy.

Growing Situation and Care Notes

Best grown in well-drained soils in full sun. Hardy.

Plant Dimensions

Grows up to 60cm x 60cm when fully mature
