

Rose 'Joan Monica'

Description

This beautiful Hybrid Tea rose is bred by an amateur breeder from Cambridge Brian Attifield.

Has pointed buds of soft pink making it the ideal picking roses. Has won many prizes at rose Shows including champion rose many times. Recommended by Roachs specialist rose nursery of Hamilton as a superb rose to give pleasure to the New Zealand gardener

Growing Situation and Care Notes

For the best results plant in full sun with well drained soil. Keep well watered in summer and apply a roses fertilizer in spring when buds are starting to move and then again in early autumn.

Prune hard in winter removing all old and dead wood pruning back to a bud.

Rose Habit

Strong medium growth with disease resistant green foliage.

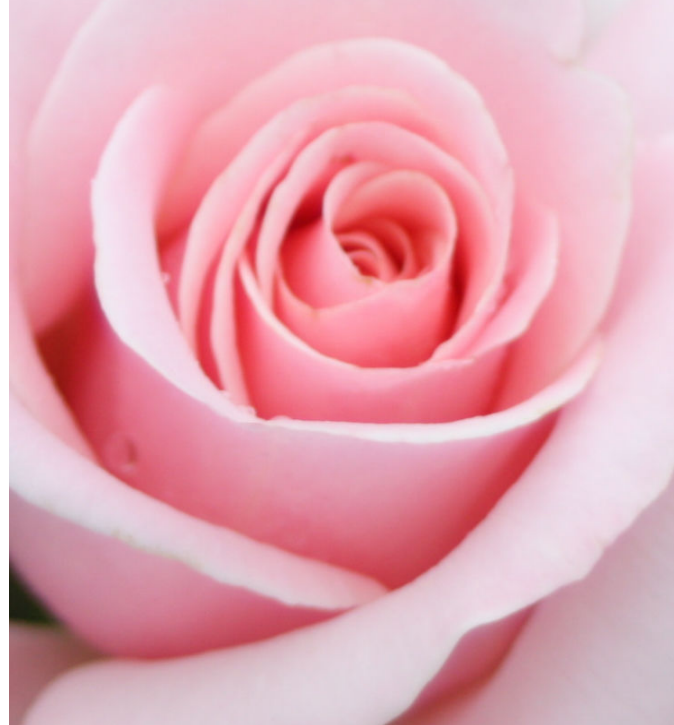

Plant:

Full sun and well drained soil
