

Magnolia 'Genie'

Description

This is an attractive, compact, NZ Bred Magnolia ideal for smaller gardens with limited space. Magnolia 'Genie' flowers frequently from early to late summer with the deep maroon buds opening to a very dark burgundy pink. Will flower profusely within the second year of establishment. Habit is pyramid shaped, reaching a height of slightly over 3 metres when fully grown. An absolute stunner! Hardy.

Growing Situation and Care Notes

Best grown in moist, well-drained soils in full sun. Hardy.

Plant Dimensions

3.5 x 1.5m when fully mature
