

Petunia 'Raspberry Blast'

Description

Petunia **Raspberry Blast** – the 'perfect perennial'.

This new breakthrough colour in petunias is a delightful soft two tone pink edged in deep cerise pink this is one plant that will make you say WOW!

Bred for its low spreading habit, continual flowering and tolerance to extreme heat, this low maintenance little beauty is a winner for containers, hanging baskets, and the general garden bed. Many petunias suffer in the heat of high summer, but Petunia Raspberry Blast is one of a new generation of perennial petunias, bred to withstand extreme heat and drought (once established). A prolific bloomer, the 5-6 cm flowers cover the entire plant from spring right through to the first winter frosts.

Petunia **Raspberry Blast** grows to 25 cm by 60-80 cm and enjoys full sun/part shade.

Growing Situation and Care Notes

For the best results plant in full sun or part shade. Maintain watering through the dry and hot periods of the year. Protect from early season slugs and snails. Regular watering and feeding will enhance the performance of Petunia Raspberry Blast and a light trim and re-application of slow release fertiliser in mid summer will promote a blast of new growth and the promise of many more weeks of stunning colour. Petunia Raspberry Blast is a low maintenance, 'self-cleaning plant', meaning you do not have to spend time picking off spent blooms - they simply fall off themselves.

How to Buy:

Contact your local garden centre. Proudly grown by Ambrosia Nurseries Christchurch.
