

## Heuchera 'Midnight Bayou' NEW

Heuchera 'Midnight Bayou' may seem like another slight variant when it comes to colour but take a closer look at the gorgeous velvet new foliage with the most striking dark leaf veining. This one is well worth collecting it is a beauty!! The more the plant establishes, the more striking the foliage becomes so exercise patience with these new Heucheras and you will be rewarded.

### Garden Design Notes

As a design tip, plant either 3 or 5 of the same type of Heuchera in your shade garden. Mix and contrast with colour (eg with Lime Marmalade, Berry Smoothie and the gorgeous jet-black and shiny Obsidian) or with foliage contrast, for example the new Sedums Mr Goodbud and Hot Stuff, or with spiky leafed Eucomis, Clivias, or the dramatic Ligularias Reniformis and Martian Invader for a dramatic shade garden

### Heuchera 'Obsidian' and others!!

A consistent top seller is the attractive jet black Heuchera Obsidian. An outstanding Heuchera which appears to do well in most areas of New Zealand and tolerates more light than lighter coloured Heucheras. Currently the one in the Living Fashion Garden has developed the most amazing 'high gloss' like polished Obsidian, hence it's name! Doesn't mind a bit of sun! Heucheras are just such guaranteed performers in shade gardens. Colour up your shade areas with your favourites of the wide selection on offer!

### Growing Situation and Care Notes

Grow Heucheras in part shade to full shade. As a rule of thumb the darker the Heuchera the less likely to burn in sunlight so give more shade to lighter foliage varieties. Avoid water logged soils, ensure good drainage. Water and feed occasionally with slow release fertiliser. Easy care. Hardy.

### Where to Buy:

Contact your local garden centre.

Website for further information [www.inplants.co.nz](http://www.inplants.co.nz)
